

Shivam Luthra

FULL-STACK DEVELOPER

A Javascript lover and an Open-Source enthusiast. Have hands-on creating SPAs, Hybrid Mobile Apps and REST APIs. Prefer scripting from scratch over using pre-built tools. Learner. Flexible to new technologies.

EXPERIENCE

PatchUs Communications Pvt. Ltd., Noida — *Software Developer*

JANUARY 2019 - PRESENT

Working majorly as Backend Dev on Patch-SDK, a VoIP-based contextual calling product for Enterprises. Responsible for the following tasks:

- Implementing CUID as the unique customer identifier instead of ongoing cc-phone identifier, using Node.js and Socket.io.
- Creating various models, relations & remote-methods on REST-API, built on Loopback 3 and MongoDB as database and Mongoose as ORM.
- Creating a scalable Notification Campaign Service, using Express.js, to deliver notifications to millions of customers in one click.

KSDAC LLP., Noida— *Frontend Developer Intern*

MAY 2018 - JULY 2018

Worked on EzGST, a product for easy GST invoicing for SMEs. Was responsible for the following tasks:

- Creating Hybrid Mobile App using Ionic 3, covering all the providers, observables and native plugins.
- Creating Admin Dashboard Web App using Vuetify framework.

AsepsisLife Inc., Remote — *Web Developer Intern*

JULY 2017 - SEPTEMBER 2017

Worked as Summer Intern(remotely) as a Web Developer. Was responsible for following tasks:

- Adding new services in the vImmune Hybrid Mobile App using Apache Cordova plugins like Camera, File System, Splash Screen & Geolocation.
- Creating Marketplace & Payment webpages using UI libraries like Bootstrap 3, Async.js, Card.js, Scrollable.js & Animate.css.
